## Richard Nixon Facing New Ordeal In California Political Campaign

Running for Governor With the Odds Against Him - Still Given as Chance for Success.

By MARQUIS W. CHILDS of Washington Correspondent of Post Dispatch. © 1962, St. Louis Post-Dispatch

LOS ANGELES, March 31.

THE ORDEAL to which Richand Nixon is about to subject him-self is almost more than flesh and blood — not to mention the ego — should have to endure. Running for Governor of California he is in the midst of a seventh crisis with the odds on his victory at least as long as in any of the six crises he de-scribes so feelingly in his just-

scribes so feelingly in his just-published book.
Consider the circumstances. He was beaten for the presidency by an eyelash. As he tells his audiences today the shift of 14,000 votes in three states would have made him the winner over John F. Kennedy. That was harder to take than early declave defeat, since the haunding might-have-beens can rever quite be put out of mind.

out of mind.

On that cruel November morning in 1880 he was left without any public office and in effect without a base from which to operate. Except for campaigning he had nil really lived in his native state since the beginning of World War II, when he went to Washington first to work in the Office of Price Administration and then to enter the Navy. After 14 years of holding elective office all he owned was an equity in his Washington house.

IN CALIFORNIA the Republican organization, as he well knew, was virtually non-existent. He found three rivals in the Go.P. governorship race, all of whom left they had a better right to the nomination than Nixon if only on the basis of their understanding of state problems.

and a better right to the nomination than tixen of only on the boasts of their under and the territories. This underscores the and the reticence. This underscores the and the reticence to the standing of state problems.

Of the twn who have already dropped only one former Governor Goodwin J. Knight, is expected eventually to come for the Democratic incumbent, Governor Edmund G. Brown. When former letterium of General Edmund G. Brown. When former the third than the statement denouncing, "the kingmakers" who had decreed "that California Republicans shall take a discard from the rubble heap of national politics and kite it."

The third rival, Joseph Shell, minority and with a generous compagin found the following the same course. It is made with a generous compagin from a decision of the state Assembly. Is fighting and with a generous compagin from a decision of the state of the state Assembly is fighting and with a generous compagin from a decision of the state of the standing of state problems.

Of the tum who have already dropped ont, one, former Governor Goedwin J. Knight, is expected eventually to come out for the Democratic Incumbent, Governor Edmund G. Brown. Who former Lieutenant Governor Harold J. Powers howed out he issued a hitter statement donouncling "the kingmakers" who bad decreed "that California Republicans shall take a discard from the robbe heap of national politics and his et."

The third rival, Joseph Shell, minority leader of the State Assembly, is fighting hard with a generous eampaign fund and the support of the right wing. He insists his strength is rivaling and he says freely that if Nixon is the nominone Brown will defeat him by 500,000 votes. The presence of the same of the primary on Jone 3 across the primary on Jone 3 across the same of the primary on Jone 3 across the same of the primary on Jone 3 across the primary of the party between "right" should be party between "right" and the primary on the party between the primary of the pr

and "moderate."

The Democrats have not only the goverworship but both houses of the legislature. They have I\_200 000 more registered voters
than the Republicans in a ratio of three
to two. The legislature in a hard-holid reshuffling of the state's concressional districts—after the pattern set by the Republicans ten years ago—knocked out many
of the comparatively sels exist that gave
an additional content of the concressional delegation.

This, then, is what Nixon confronts as he begins at the bottom of the political ladder. It is hardly to be wondered at that members of his family and close friends are said to have tried to dissuade him from making the race.

him from making the race.

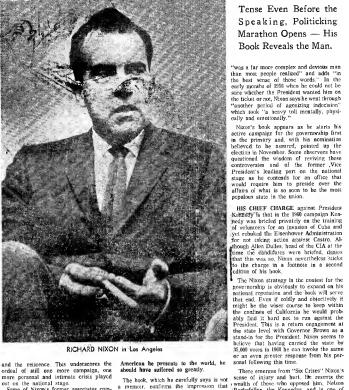

The days, weeks, months in which without any respite, except for snatches of sleep, he must smile, shake handis, speak incessantly, write speeches, organize his campaign, cesselessly travel over this ampaign, or the sampaign of the sampaign of the sampaign has really begun. In the sampaign has really begun.

But no matter how great the odds, Nixon's chances of success should not be discounted. For he is the same Nixon who has gone so far on resources that in any objective view are seen to be limited.

View are seen to be limited.

A GREAT DEAL has been written, some of it by this observer, about the new Nixon and the old Nixon. In retrospect that has a foolish sound, Seeing limin action today you realize he is exactly the same product of drive and discipline—above all the latent search of the search of the

"It takes real people to come back after tha," he tells his Republican audience when he rehearses the hearrbreaking 14,000 vne miss of 1980. "Not that I'm talking about the candidates, they always come beck, of course, but you people who are going out and carrying the word to your

THE DRAGON wears many faces. It is the American press and in particular certain sections of the press. It is the Demo-cratic party. It is Communism and Premier Khrushchev. But in each account the dragon, if not slain, is shown up for the wucked, unfair, reprehensible creature it is.

But above all the book is important for its revolation of the Nixon character. The word "rousien" recurs again and again in each of the six chapters. The man each live seems to have been under an intolerable strain. That is the tragedy— —and the triumph—that behind the fixed gaze, the face of the ambittious, hopeful

in a sense Nixon's political progenitor.

One of the most interesting relationships, as the author recounts the Hissease, the private fund controversy in the 1852 campaign, the Eisenhower heart attack, the Caracas stanning, the encounter with Khrushchev and the '90 campaign, is that with the President under whom he served. Nixon pays Eisenhower full tribute as here and as chief executive. In the served with the served with the properties of the served with the fund which Nixon's business supporters made available to him while he was Senator, was hard to take.

At one point he says that Lisenhower

"was a far more complex and devious man than most people realized" and adds "in the best sense of those words." In the early menths of 1958 when he could not be sure whether the President wanted him on the ticket or no, Nixon says he went through "another period of agonzing indecision" which took "a heavy toll montally, physically and emotionally."

cally and emotionally."

Nixon's book appears as he starts his active campaign for the governorship first in the primary and, with his nomination believed to be assured, pointed up the election in November. Some observers have questioned the wisdom of reviving these controversies and of the former. Vice President's leading part on the national stage as he contends for an office that would require him to preside over the affairs of what is as soon to be the most populous state in the union.

populous state in the union.

American he presents to the world, he should have suffered so greatly.

The hook, which he carefully says is not a memor, confirms the impression that memor, confirms the impression that was a say loy in battle, as in the hearty journating with a variety of dragons of Theodore Roosevila, it is not here.

It is perhaps significant that one of the persons for whom Nixon expresses unqualified respect and praise is Thomas the persons for whom Nixon expresses unqualified respect and praise is Thomas to the persons for whom Nixon expresses unqualified respect and praise is Thomas to the persons for whom Nixon expresses unqualified respect and praise is Thomas to the persons for whom Nixon expresses unqualified respect and praise is Thomas to the persons for whom Nixon expresses unqualified respect and praise is Thomas to the persons for whom Nixon expresses unqualified respect to the persons for whom Nixon expresses unqualified respect to the persons for the persons

Nixon believes that his major role in sending Alger Hiss to prison brought him harred and entury that have never been abated. He goes so far as to say that if it had not been for the Hiss case he might be President today. But he addis that if it had not been for the She would never have been Vice. President and a presidential candidate:

In his acceptance speech when he was nominated by the Republicans in 1960 Nixon said, "I believe in the American dream because I have seen it come true in my own life." He has now made it abundantly clear how much it cost to realize that dream.
